WALHALLA, S. C. :

WEDNESDAY, JULY 13, 1904. THE R. V. PIERCE COMPANY'S SUIT.

In The Courier of May 11th we noted the suit filed by the R. V. Pierce Co., of Buffalo, N. Y., for \$200,000 damages against the Curtis Publishing Co., (The Ladies' Home Journal), on account of charges made in that magazine as to certain injurious ingredients claimed by them to be contained in the medicine to which the Home Journal's article referred. In the July number of the Home

Journal the following article appears, in

which the previous charges are retracted

and acknowledged to be without founda-

In the May number of the Ladies' Home Journal we published, in the arti-cle entitled "The Patent Medicine Curse," an analysis of Dr. Pierce's Favorite Pre-scription in which that preparation was represented as containing, among other ingredients, tincture of digitalis, tincture of onum, and alcohol. Impediately of opium, and alcohol. Immediately upon publication of the number a suit for damages was instituted by the R. V. Pierce Medical Co., of Buffalo, N. Y., proprietors of the preparation in question, against the Curis Publishing Co., based upon the claim that none of the three ingredients w s contained in the

Medicine.

Upon the filing of the suit we of course looked into the published analysis. It appears that this particular analysis had been made, if made at all, fully twenty-five years ago. We thereupon employed three leading chemists in different cities to make an analysis of the preparation from bottles bought in the open market. These analyses, one and all, now show to us conclusively that not a single one of the ingredients mentioned by us in the analysis quoted that not a single one of the ingredients mentioned by us in the analysis quoted—that is, either digitalis, opium or alcohol—was contained in the bottles analyzed. We then—the president of this company and the writer—personally visited the R. V. Pierce Medical Company, at Buffalo, and was there convinced that the officers of the company were absolutely truthful in their claim that not one of these injurious ingredients was contained. these injurious ingredients was contained in Dr. Pierce's Favorite Prescription Naturally, since the analysis we printed has been proved erroneous, the deduc-tions made in connection with this preparation were unwarranted and unfounded.
Under these circumstances it is now
perfectly plain to us that this magazine was unintentionally, but nevertheless absolutely, misled in making the original statement, and we hereby, of our own volition, make this unqualified acknowledgment of our mistake to the R. V. Pierce Medical Company and to our

The mistake was honestly made, but i was a mistake.

Madison, July 4.—"Hoora" for the Fourth of July. It only comes once a year. Then why not let the boys have a year. Then why not let the boys have a good time on this day? Let them remember the day when our grandfathers declared their independence. Just think how short the time has been since grandfathers shouted, "Ring, Ring, Oh, Ring for Liberty."

But that old bell now is silent, And hushed its iron tongue, But the spirit it awakened Will live forever young."

Just think what a day this must have been, when our fathers shouted until their voices ruffled the calm, gliding waters of the Delaware. Plenty of rain. Farmers looking per-fectly happy. Crops the best they have been for years.

The Rural Libraries.

According to the reports sent in by the various County Superintendents of Edu-cation to the State Superintedeut of Edu-cation, 302 school libraries have been established under the provisions of the Aull library act, passed by the recent Legislature. State Superintendent Mai tin thinks that this is doing very well in deed, inasmuch as the law has been in operation but four months and many of the schools closed soon after the money became available. He says that this work will receive renewed interest and effort when the schools open again in

the fall.

It will be noticed that the counties of Darlington, Edgefield, Fairfield, Florence, Greenwood, Marlboro, Richland, Spartanburg and York have the full twelve allowed under the provisions of the act, and several of the others will soon reach the limit for this year. Several County Superintendents report that they could raise more than twelve. Superintendent Elmore, of Spartanburg, says that he thinks that his county would raise fifty by the close of the vear if the raise fifty by the close of the year if the same conditions should apply to all over twelve. For Richland twenty-three libraries have been established, the trustees having advanced the money for the extra ones. A prominent citizen of Darlington county donated enough money to help the twelve most needy schools in that county, and that will make twenty four for Darlington.

The establishment of the small libraties has given an impatus to the more

The establishment of the small libraries has given an impetus to the movement for improved school libraries and better equipment. The State Superintendent hopes that the library law will be continued with its provisions enlarged and extended, and he believes also that it will lead to some legislation for better howest and conjunction. for better houses and equipment

grasshoppers, owls, parrots and mon-keys. When the ship landed at the wharf several cantaloupes were brought

anything else that had been given them. So far as we have heard, none of the favorite foods enumerated as pleasing to the palates of the Balabus and Baquobas

Sleeplessness Is a Sign of Nerve Trouble and Should Be Looked To.

There are three different manifestations of sleeplessness. First, hardly to sleep a wink all night. second, to lie awake a long time before falling asleep; third, to fall asleep soon, waking up after several hours and then find it hard to sleep again.

A large quantity of whiskey is being shipped through this State from North Carolina to Georgia and Florida. Some of it, however, is consigned to the local blind tigers, as a seizure by Constables Boland and Johnson last night will show. 50 Online tigers, as a solution of the solutio Southern crosses the Scaborad. A freight car had been side-tracked there and a driver, Arthur Holloway, employed by Sellers, was loading up the stuff when the constables appeared. Holloway took to the woods and escaped, but a little white fellow named Andrews was caught. The constables found 25 fivegallon kegs of corn, two barrels containing two hundred half pints of peach and honey, a horse and wagon and a fine set of harness. The horse is a magnificent honey, a horse and wagon and a line set of harness. The horse is a magnificent animal and under the law is the property of the State.—Columbia Cor.
